

Brownfield Site Assessment Nomination Form

The City of East Point, GA is in the process of identifying sites that might be assessed under their FY 2019 EPA Community-wide Brownfield Assessment Grant.

The grant program provides funding for brownfield inventory development, Phase I & II Environmental Assessments, Cleanup Planning, and Visioning. Assessment grants cover 100% of eligible costs with no grantee match. Additional Information on the program may be found here:

<https://www.epa.gov/brownfields/types-brownfields-grant-funding#tab-1> .

Please complete this form and submit it to the contact listed below in order to nominate a site or sites for possible inclusion in the City of East Point's Brownfield Assessment Program. It is the City's intention to complete a series of assessment and cleanup projects over a period of 4-6 years under multiple EPA grants.

The goal is to focus on properties that meet the definition of a federal Brownfield Site: *"...real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant (including sites contaminated by petroleum or petroleum products)."*

Sites will be select based on the following criteria:

1. **Properties that have a strong prospect for redevelopment that have an environmental stigma.**
2. **Properties owned by non-profit organizations where the owner did not contribute to perceived contamination.**
3. **Privately owned properties where the owner did not contribute to perceived contamination.**

Target properties typically include vacant/underutilized properties such as: former gasoline filling stations, former auto body shops, former dry cleaning operations, vacant industrial sites/mills, blighted tract housing, vacant farm/agricultural operations, and mine scarred lands.
