

Councilmember (CM) Thomas Calloway was born in East Point in 1977 and has spent his whole life in East Point and the metropolitan Atlanta area. CM Calloway attended the Georgia Institute of Technology (Georgia Tech) where he studied chemical engineering.

CM Calloway believes safe, viable neighborhoods, efficient government services and smart economic growth are essential to a City's stabilization. He believes East Point is not only a city that has a lot to offer, but that it is a place continuing to evolve. CM Calloway sought a position on Council to affect change. Impassioned about citizen's concerns, CM Calloway incorporates those concerns into his ***"Things to Do"*** as he advocates for his constituents and the greater good of the community.

Today CM Calloway owns a small business and is excited to serve the citizens of East Point.
