

Downtown East Point

FEATURED BUSINESS

Therapy Works

Therapy Works opened its doors in East Point in 2014. They chose to locate in East

Point because of its centralized location and friendly culture.

Therapy Works is proud to offer highly qualified therapists in the speech, occupational and physical therapy field areas. They serve children from birth to 21 years of age. They focus on developing important skill sets and they strive to enhance

the children's lives who are dealing with a variety of disabilities and/or developmental delays.

They consider friendly customer service an essential part of their care. They work closely with families so that what is learned can be carried into the children's school and home life.

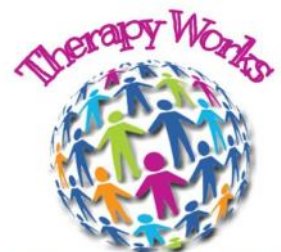

Brook Terrell, M. Ed.
Owner

Therapy Works hosts an annual clothing and toy drive each February to 'share the love'. They also have Spanish speaking therapists!
